CONTENTS

Volume 17

Number 1, February, 1971

K. KUBOTA, T. SHIRO and S. OKUMURA: Fermentative production of L-histidine. I. Production of L-histidinol by a histidine auxotroph of *Brevibacterium* flavum and formation of L-histidine from L-histidinol by Microorganisms. 1
K. NAKAMURA, S. KANEGASAKI and H. TAKAHASHI: Adaptation of ruminal bacteria to concentrated feed. 13
H. KURAISHI, Y. TAKAMURA, T. MIZUNAGA and T. UEMURA: Factors influencing death of biotin-deficient yeast cells. 29
T. NAKASE and K. KOMAGATA: Significance of DNA base composition in the classification of yeast genus *Debaryomyces*..... 43
K. KAWAI, S. YASHIMA, Y. OKAMI and Y. SASAKI: Aerobic dissimilation of glucose by heterolactic bacteria. I. Reduced pyridine nucleotide-oxizing enzymes in *Leuconostoc mesenteriodes*. 51
N. TSUCHIDA, M. NONOYAMA and Y. IKEDA: Diversity of *Escherichia coli* RNA phages. I. Isolation and characterization of new type RNA phages..... 63
N. TSUCHIDA, M. NONOYAMA and Y. IKEDA: II. The exclusion phenomenon observed in RNA phages. 71
T. NAKASE and K. KOMAGATA: Further investigation on the DNA base composition of the genus *Hansenula*. 77
T. MIZUNAGA, H. KURAISHI, K. AIDA and T. UEMURA: Change of cell wall polysaccharides of yeast in biotin deficiency. 85

Number 2, April, 1971

K. SANO and I. SHIIO: Microbial production of L-lysine. IV. Selection of lysine-producing mutants from *Brevibacterium flavum* by detecting threonine sensitivity of halo-forming method. 97
D.O. SILVA and G.T. ZANCAN: Inorganic pyrophosphatase from *Polyporus circinatus*. 115
T. NAKASE and K. KOMAGATA: Significance of DNA base composition in the classification of yeast genera *Cryptococcus* and *Rhodotorula*. 121
Y. NISHIZAWA, S. NAGAI and S. AIBA: Effect of dissolved oxygen on electron transport system of *Azotobacter vinelandii* in glucose-limited and oxygen-limited chemostat cultures. 131
S. UDAGAWA and Y. HORIE: Taxonomical notes on mycogenous fungi I. 141
T. NAKASE and K. KOMAGATA: Significance of DNA base composition in the classification of yeast genus *Torulopsis*. 161

Short Communications

K. KUBOTA, K. KAGEYAMA, T. SHIRO and S. OKUMURA: Fermentative production of L-serine. 167

K. SANO and I. SHIIO: Microbial production of alanine, L-proline, and L-valine by threonine- or methionine-sensitive mutants of *Brevibacterium flavum*. 169

Number 3, June, 1971

S. YASHIMA, K. KAWAI, T. KAZAHAYA, Y. OKAMI and Y. SASAKI: Aerobic dissimilation of glucose by heterolactic bacteria. II. Phosphate acetyltransferase of *Leuconostoc mesenteroides*. 173
S. KURITA, T. ENDO, H. NAKAMURA, T. YAGI and N. TAMIYA: Decomposition of some organic sulfur compounds in petroleum by anaerobic bacteria. 185
H.W. SCHELD and J.J. PERRY: Studies on the formation of fruiting bodies in the basidiomycete *Lenzites saepiaria*. 199
O. KANAMITSU: Germination and outgrowth of a temperature-sensitive mutant of *Bacillus subtilis* appearing to have a defect in ribosomes. 207
S. OKAMURA, K. IZAKI and H. TAKAHASHI: Failure of spore-specific RNA synthesis in an early sporogenous mutant of *Bacillus subtilis*. 215
T. NAKASE and K. KOMAGATA: Significance of DNA base composition in the classification of yeast genus *Saccharomyces*. 227
J. YOSHIKAWA and K. OISHI: Respiratory and luminescent systems of *Photobacterium phosphoreum*. 239
A. SRIVASTAVA, H.P. GUPTA, I.S. MATHUR and S.K. GUPTA: Effect of inoculation of vegetative myxamoebae of cellular slime molds (acrasieae) in mice, rats, and guinea pigs. 251
T. NAKASE and K. KOMAGATA: Significance of DNA base composition in the classification of yeast genus *Candida*. 259

Number 4, August, 1971

H. MURAKAMI: Classification of the koji mold. 281
V.R. RAO and K.G. MUKERJI: Cytology of the ascus in *Achaetomium globosum* and *A. luteum*. 311
K. NAKAMURA and H. TAKAHASHI: Role of lactate as an intermediate of fatty acid fermentation in the sheep rumen. 319

Short Communication

I. YANO, Y. FURUKAWA and M. KUSUNOSE: Occurrence of acylated trehaloses in *Nocardia*. 329

Number 5, October, 1971

M.S. CHENOUDA and Z.A. EL-AWAMRY: Biosynthesis of biotin by microorganisms. I. Biotin-vitamers accumulated in the culture medium of *Phycomyces blakesleeanus* and the time course of synthesis in relation to metabolic activities. 335
M.S. CHENOUDA and Z.A. EL-AWAMRY: II. Biochemical factors affecting the synthesis of biotin-vitamers in *Phycomyces blakesleeanus*. 345
M.S. CHENOUDA and Z.A. EL-AWAMRY: III. Mechanism of biotin-vitamer biosynthesis in *Phycomyces blakesleeanus*. 353

T. NAKASE and K. KOMAGATA: DNA base composition of some species of yeasts and yeast-like fungi. 363
T. SATO, Y. SUZUKI, K. IZAKI and H. TAKAHASHI: Some features of saline-sensitive phenomenon in *Escherichia coli*—protection and recovery by magnesium ion. ... 371
T. NAKASE: New species of yeasts resembling *Candida krusei* (CAST.) BERKHOUT. ... 383
R.B. JACKSON: Effect of composition of the medium on utilization of allyl alcohol by *Trichoderma viride*. 399
T. NAKASE: New species of yeasts found in Japan. 409
A.F. ABDEL-FATTAH, S.S. MABROUK and M. EDREES: Degradation of flax pectin by polygalacturonase of *Clostridium felsineum* and some aspects on the detection of pectin-methylesterase. 421

Short Communication

I. YANO, Y. FURUKAWA and M. KUSUNOSE: Conversion of α-hydroxypalmitic acid to pentadecanoic acid by resting cells of *Arthrobacter simplex*. 429

Number 6, December, 1971

J.N. NIGAM, B.K. LONSANE, K. VADALKAR, H.D. SINGH, J.N. BARUAH and M.S. IYENGAR: Growth of *Endomycopsis lipolytica* on hydrocarbons. 433
A. KATO, K. IZAKI and H. TAKAHASHI: Floc-forming bacteria isolated from activated sludge. 439
K. IMAI and T. IIJIMA: Inhibition of bacterial growth by citrate. II. Inhibition of glucose permeation by citrate in *Arthrobacter simplex* IFO 12069. 457
T. NAKASE: Four new yeasts found in Japan. 469
Y. TAKAHASHI: Biochemical changes during the development of respiratory activity in *Escherichia coli*. III. Preferential development of aconitase activity by fluoroacetate. 479
B. RAY and S.K. BOSE: Polypeptide antibiotic-negative sporeformer mutants of *Bacillus subtilis*. 491
B.K. LONSANE, H.D. SINGH, K. VADALKAR, B. BARUA, J.N. BARUAH and M.S. IYENGAR: Growth of yeasts on hydrocarbons at 37°. 499

Short Communications

A.F. ABDEL-FATTAH and S.S. MABROUK: Investigations on the electrophoresis and the activity of the rennin-like enzyme from *Aspergillus niger*. 509
T. OSHIMA and K. IMAHORI: Isolation of an extreme thermophile and thermostability of its transfer ribonucleic acid and ribosomes. 513
